

Realism and Impressionism from the Ukraine

A major event in the promotion of Ukrainian Art will take place from November 6th to 18th at The Gallery in Cork Street (see listings). The exhibition is partly sponsored by the Kiev's State Department of Culture and will be opened by the Ukrainian Ambassador in the presence of the Duke of Gloucester. There will be a comprehensive selection of art works in an exhibition titled "Realism and Impressionism from Ukraine". During the opening ceremony a few paintings will be auctioned with full proceeds to the Charity "Chernobyl Relief Foundation in the UK".

Coinciding with the inauguration of the touring exhibition in London, Studio Sienko will be holding a show devoted entirely to industrial scenes by Grygoriy Shishko. A year ago this artist held a solo show which aroused enormous interest. This exhibition will serve as a memorial to his achievements - he died in August 1994.
